# THE PREFACE.

**A**S for the use of this Tract, it is made in a *Pocket Volume*, partly design'd for all such as frequent *Coffee-Houses*, and other places for *News*; by which any *City, Town or Castle* of Note in *Europe*, that is wanted, may be readily known where it is, who it belongs to, the *Situation, Distances, &c.* and partly for the true understanding all *Modern Histories*, especially all those of the two or three last *Centuries*, which without such helps as these, can be of little use to those that are not extraordinary well skilled in *Geography*. The *Title* was given me by a very eminent Person, whom I forbear to name.

To give a particular Account of this Work; it is a Collection of between two and three thousand *Cities, Towns*, and such like, placed *Alphabetically*; in every one of which, are these following Particulars, in as much as the subject would permit, or might be convenient or necessary to the Perfection. 1. Is mentioned the *Name*: 2. Some *Epithete* as it deserves: 3. In what *Country or Kingdom* it is: 4. In what *Province*, or lesser part it is: 5. In what *County*, or any other *Subdivision* it is: 6. If it be the *Metropolis*, or chief of any of these: 7. If it be a *Patriarchal City*: 8. If it be an *Archbishoprick*: 9. If it be a *Bishoprick*, and under what *Archbishop* it is: 10. If it be an *University*, with a more proper *Epithete*: 11. If it be

## The P R E F A C E.

an Imperial or Hance-Town : 12. If it be a *Parliament-City, Generality, Dukedom, Earldom, &c.* 13. What *Emperor, King, Prince, or Potentate* it is subject to : 14. What *Battle* or other great *Action* it is famous for, with the time it was done : 15. Upon, or nigh what *River, Mountain, &c.* it stands : 16. The *Distance* in *English Miles* from some other *Places* of Note : And, 17. The *Longitude* and *Latitude*.

The number of *Places* are very great and considerable, and I believe will prove sufficient for any Man's Curiosity ; for I have left out none of Note, or could any ways deserve a name in such an *Index* ; yet the Reader is not to expect to find every little *Place* that is sometimes mentioned in the *Gazettes* and *News-Books*, for that would be a Work of vast Difficulty, and little Use, there being often some *Places* named no better than *Villages*, which are never mentioned twice : But yet I question not, if strict Examination be made, but here will be found more than would have readily been imagined in so small a room ; and that it might be the more full I have not set down any out of *Europe*, because they are not of such Use ; neither have I mentioned any in *England* or *Ireland*, (tho' several have found fault with the Book upon this account) but five or six of the chief of each : For *England*, the Reader may see *Adams* and *Spelman* ; and for *Ireland*, my Description of that Kingdom.

As to the *Names* and *Spelling* of *Places*, I have taken such care, that I believe no Man can easily miss of a *Place* for not knowing the true way of *spelling* of it, (an Error which has bred great confusion, and given Discouragement -to many) for here is set down all the different ways of *spelling*, in asmuch as could be conveniently, which may be found in their

## *The P R E F A C E.*

*Alphabetical Order, with Directions, to See for the Place required. But more than this, I have also set down in their proper places how they are called in France, Germany, Holland, Spain, Turkey, &c. So that it will serve for the French, Dutch, or any other Country's Gazette, as well as the English; a thing extremely necessary: For most Persons are very apt to mistake when they hear of Bergen, Luyck, Vlis-singen, and St. Gnavenhaage, instead of Mons, Leige, Flushing, and Hague; Wien, and Offen, instead of Vienna and Buda; and Grichisch-Weissenburg, and Stamboul, instead of Belgrade and Constantinople.*

If any Place be very famous for any Battle, or great Action, or any other very remarkable thing, it is here put down, tho' it be never so small a Place: as Lutzen, Sennis, Flerus, Steenkirk, &c. All Places have mostly their proper Epithets as they deserve, and sometimes two or three; as large, small, fair, beautiful, rich, magnificent, strong, neat, City, Town, &c. and likewise more distinguishing marks; as, Arch-bishoprick, Bishoprick, University, Dukedom, &c. But for a better distinguishing of greater Places, here are given different Characters or Letters, so that the Cities of the first Rank may well be known from those of the second Rank; and those of the second from the rest. All the Metropolis's of Provinces (besides several others of equal Deserts) are mostly reckoned of the second Rank, though possibly they do not always deserve to be called so.

For the better perfecting the Work, I have put in no Place whatsoever, without telling who it is sub-ject to; and for the better preserving a Method, e-ven those that are out of all doubt, such as in France or Spain, where it is supposed that every Man knows to whom it belongs.

## The P R E F A C E.

For the finding of a *Place* in the *Maps*, (which was one great *Design* of this *Index*) here are such plain Marks and easie Directions given, that I could not possibly imagine a way more perspicuous in so small a room, - which are done these four ways;

1. By setting down, not only in what *Country*, *Kingdom* and *Province*, but, also in what *County*, *Territory*, or any other *Subdivision* it stands.
2. By telling its *Situation*, that is, upon or nigh what *Rivers*, *Brooks*, *Lakes*, *Mountains*, &c. and the *Borders* of what *Countries* and *Provinces* it stands.
3. By shewing its *Distance* from other *Places* of Note, with its *Situation*, in respect of *East*, *West*, *North*, or *South*; and this will be a considerable Help to any Person when he has not *Maps* at hand, for the making of him conceive whereabouts it is.
4. By giving its *Longitude* and *Latitude*, which is the surest and quickest way of all, if the *Maps* be true and good.

As to the *Distance* of *Places*, I must desire the Reader to take Notice, that I have followed no Book whatsoever, not in one place, but have measured 'em every one my self, according to the best *Maps* I could procure; the *Miles* I always make use of, being exactly the 60th part of a *Degree* in the *Equator*, which will mostly agree with our common computed *Miles*. Notwithstanding my own measuring, I cannot always promise the Reader certainty.

1. Because the best *Maps* have many Faults, and particularly those of *Greece*, *Servia*, and other Parts of *Turky*, as all modern Travellers complain of; but those of the *Low-Countries*, *France*, and *Germany* might be truer, if the *Ingravers* were not so hasty and would keep closer to their *Copies*. And,
2. Because in the measuring I may possibly sometimes have mistaken a *Mile* in *Twenty*, which I look

upon

## The P R E F A C E.

upon as no great Fault. Another thing I advertise the Reader of, is, The *Distances* are not taken according to *Roads* or *Higbways*, but according to the *Situation* in *Maps*, as to *Longitude* and *Latitude*; and I never reckon two *Places* the further off, for having *Rivers*, *Lakes*, *Seas* or *Mountains* between.

I shew the *Distance* of a *Place* sometimes from three or four others, sometimes more, and sometimes less; if it be an ordinary *Place*, the *Distance* is sometimes given only from one *City*, if that be of great *Note*; as *Ostia* from *Rome*, and *Bavay* from *Mons*; sometimes from two *Cities*, as *Niville* from *Mons* and *Brussels*. The distance of great *Cities* (I mean the chief of *Provinces*, and some others that are reckoned of the *Second Rank*) are most commonly given from those of equal *Note*, or the same *Rank*, though at a good distance, and also from the *Metropolis* of the *Country*, though never so far off; as for instance, *Mantua* in *Italy*, and *Munster* in *Germany*; but for the chief of a *Country*, as *London*, *Vienna*, *Paris* and *Constantinople*, the *Distance* is given from those and only those of the same *Rank*; as in *London* the distance is given from all the chief *Cities* in *Europe*; and *Vienna*, the distance is given from *Buda*, *Gracow*, *Rome*, *Amsterdam*, *Paris*, *London* and *Constantinople*: so likewise the rest.

For the *Longitude* and *Latitude* of *Places*, I must acquaint the Reader, that I have calculated 'em all according to *F. de Wit's* newest *Maps*; so that by the help of those *Maps*, any *Place* may be found with great ease and quickness: Sometimes perhaps I may have mistaken a *Minute* or two. The first *Meridian*, according to him, begins at *Teneriff*, one of the *Canary Islands*; but in *Sanson's* and *Berry's* *Maps*

## *The P R E F A C E.*

Maps, the first *Meridian* is made at *Ferro*, two Degrees more West than *Teniff* : So that if any Place be sought for in their Maps, there must be two Degrees allowed in the Longitude ; so for instance, what is there 20 and 30, must be reckoned as 18 and 28.

If this Book should fall into the hands of some that do not know what Longitude and Latitude is, this is to let em know, that in all Maps, the top is the North, the bottom the South, the right hand the East, and the left the West ; (or at least should be so) the distance from the West to the East, is Longitude ; and from the South to the North, is Latitude ; all which may be easily seen by the Figures that are in the Sides, Tops, and Bottoms of every Map.

That all these things that I have spoken of, might be easily put into so small a Volume, and that it might want nothing that could with any probability, satisfy any curious Enquirer, I have explained all things by Abbreviations and Figures, and with a Character for that purpose. So that if every thing had been done at length, the Book must have been at least three times as large ; which would have made it of far less Use, and lost much of the Original Design, which was *Multum in parvo*.

In short, all things are so well ordered, and Subject and Design so good, that I could not have possibly invented any thing so small, of more general Use for the Publick than this, or that is more probable to please ; not that I deserve one Word of Commendation, for any Person that had a small Skill in Geography, might have done it as well as I, with the same Pains.

As for this *Edition*, I have made very considerable and useful Additions (yet lost little or nothing

---

## The P R E F A C E.

---

thing of the design of *Brevity*) besides a great number of *New Places* not mentioned in the *First* and *Second Impression*, which add much to the Perfection of the *Work*. So that now there are several *Places* in this (and those of Remarkable Account too) that are not to be found in any *Geographical Dictionary* extant. - I shall not trouble the Reader with the Particulars of these *Additions*; but only let him know, that I think never to make any more *Additions* for the future, as well for my own ease, as to prevent spoiling of former *Impressions*, for the vastness of the Labour of these sort of *Under-takings* is sufficient to deterr me from making any further Attempts.

I shall only say thus much more, That I have not design'd this only for the *present Times*, (neither shall I ever write because of the *Times*, again, except I were able, to do some signal service in *Church* or *State*) but this is a thing which will be as necessary many Years hence as now; and will be of standing Use to succeeding Ages.
